

Date: 12.03.2026

To Whom It May Concern,

This is to certify that **KEVAL KAPADIYA**, bearing the email ID **kevalkapadiya9913@gmail.com** has successfully completed a **Two-Month Project Internship at HEPro (AI Product Development – HEPro AI / HEPro+)**, under the **Artificial Intelligence and Machine Learning (AI/ML)** domain, from **12.01.2026 to 12.03.2026**.

During the internship period, **KEVAL KAPADIYA**, worked as an **AI & Machine Learning Intern** and actively contributed to the design and development of an **AI-powered student mentoring intelligence system** aligned with **HEPro AI**, a next-generation AI-driven mentoring and career acceleration platform. The work focused on applying data analytics, rule-based intelligence, and machine learning techniques to build a scalable system capable of supporting proactive student mentoring and decision-making.

Key Responsibilities Undertaken

- Designed and developed a data-driven framework for analyzing student academic, wellness, productivity, and career readiness indicators.
- Implemented scoring algorithms to generate performance metrics such as **Academic Score, Wellness Score, Productivity Score, and Career Readiness Score.**
- Applied machine learning techniques to identify student behavioral patterns and segment learners based on readiness and risk indicators.
- Developed logic for **mentor recommendation and intervention strategies** to support data-informed mentoring decisions.

Major Project(s) Completed: Project Title: Dedicated Mentoring System for Students (HEPro AI+)
Tools / Technologies Used: Python, Pandas, NumPy, scikit-learn, Jupyter Notebook, Data Visualization Libraries (Matplotlib/Plotly), CSV-based data processing, Machine Learning (K-Means Clustering), Rule-based Decision Systems.

Throughout the internship tenure, **KEVAL KAPADIYA**, demonstrated **strong learning agility, analytical thinking, effective communication, teamwork, and time management**, along with the ability to apply theoretical AI/ML knowledge to real-world problem-solving scenarios.
